## **SHARP HOME THEATRE WITH DVD AND CINEMA SOUND**

Sharp Corporation of Australia, the company that brings one-of-a-kind-technology to the consumer, has expanded its impressive audio line up with two new units into its home theatre range, the **HT-X1W** and the **SD-AS10W(s)**.

True cinema-like audio at a competitive price, the **HT-X1W** and the **SD-AS10W(s)** are 5:1 channel home theatre packages including DVD player, which boast set-up flexibility in a slim design for perfect style sync when set up with LCDs and other flat panel TVs.

The quality six speaker **SD-AS10W(s)** features a built-in Sharp 1-Bit Digital amplifier for crisp, clean high resolution sound with 5.6MHz ultra high speed sampling.

In a first for Sharp home theatre, the **SD-AS10W(s)** also has a 5-Tray Disc Changer with play exchange, and the Dolby® Virtual speaker provides quasi-surround sound even when the speakers are set up in a line! The unit's universal remote control can also be used with your Sharp LCD TV and other TVs, and as an added extra it also features a clock/timer/sleep alarm.

The **HT-X1W** is a six speaker (50W each) system including subwoofer in a unique and stylish cylindrical design, making it a feature piece in any room. With a power consumption of only 0.8w in standby mode, this powerful system won't break the bank – but still packs a powerful sound punch.

Both the **HT-X1W** and the **SD-AS10W(s)** have the very best in Dolby® Digital sound; and play DVDs, JPEGs, MP3s and CDs; are rewriteable DVD and CD compatible; and both units can also be used as a two-band AM/FM tuner with 40-station random preset memory.

<b>Model</b>	<b>Available</b>	<b>RRP</b>
<b>HT-X1W</b>	June	\$549.00
<b>SD-AS10W(s)</b>	July	\$1,099
