August 2004**

## **NEW SHARP PROJECTORS LEADING THE WAY IN HOME THEATRE**

Whether you want to bring the big screen movies home, or carry out the perfect work presentation, Sharp Corporation has an affordable data projector to suit your needs.

The new **Notevision XR-1X** and **XR-1S** are true multimedia **DLP projectors**, which provide high brightness, easy operation and sleek, super-compact bodies. The 1,200 ANSI lumen **XR-1X** projector boasts **2000:1 contrast** and **4,000 hours of lamp life** (economy mode).

The **XR-1S** is a 1,100 ANSI lumen projector with **1500:1 contrast** and **4,000 hours of lamp life** (economy mode).

Both **XR** models enjoy **Carl Zeiss™** short throw lens, **quick start up** times (typ. 8 secs) with Auto sync, **set up guide** with intuitive on screen menu and LED guided menu selection, switchable **aspect ratios both 4:3 and 16:9**. They also feature DVD, DTV and HDTV compatibility, a special help menu, remote control and mouse operation, freeze and mute functions in a sleek, compact body which **weighs only 1.45kg**.

If home theatre is your passion, then the new **Sharpvision XVZ10E true widescreen** home theatre projector for you. The versatile unit can be mounted on a table, wall or from a ceiling bracket as its **Free Mount Lens Shift** function and **short throw lens** projects clear movies from almost any angle. The **1,000 ANSI lumen projector has 700:1 contrast with only 32 decibels of noise in eco mode**. Whether you prefer your movies in widescreen or normal format, the **XVZ10E has switchable 16:9 or 4:3 aspect ratios** available. It is HDTV and DTV compatible and has a manual zoom and focus.

<b>Model</b>	<b>Available</b>	<b>RRP</b>
XR-1X	August	\$3999
XR-1S	Now	\$2999
