

## **Cooking made easy with Sharp's new microwave range**

Sharp Corporation of Australia is delighted to announce the release of three new microwave ovens, the R290NS, R395NS and R398NS, which combine the latest microwave technology with a stylish and contemporary stainless steel fascia.

All three models feature easy defrost menus, alarm function, one touch instant action and have five power levels to suit all cooking needs.

The compact Sharp R290NS features 800W of output power, six one touch instant action menus for cooking and reheating as well as a 272mm glass carousel turntable.

The midsize R395NS and R398NS both feature 1100W of output power, a wider 320mm glass carousel turntable, an instant cook button, more/less setting, child lock and demonstration mode with an overview of the inbuilt features and functions. When it comes to making meals conveniently, the R395NS steps up to the challenge and features eight one touch instant action menus for quick and efficient cooking and reheating.

The R398NS offers a range of popular menus pre-programmed for consumer convenience. These include the Healthy Menu option with 10 delicious low fat and vegetarian meals. The Express Menu function offers 12 pre-programmed options for defrosting and cooking. The Quick & Easy menu allows 6 popular recipes to be cooked without fuss. Everyday menus such as vegetables, rice/pasta, desserts and reheat have been pre-programmed as part of the Sensor Cook/Sensor Reheat function. This Sensor cook function eliminates the guesswork out of cooking by monitoring the amount of moisture to determine the cooking time and power level.

With their vast selection of cooking, defrosting and reheating options, these streamlined stainless steel fascia models are the perfect partners to help in today's modern kitchen.

The Sharp R290NS, R395NS and R398NS microwave ovens are available now from leading electrical retailers and are priced at RRP \$274, \$395 and \$461 respectively.
