

Whiter and brighter as Sharp expands top mount refrigerator range

Sharp's top mount refrigerator range just got even bigger and brighter with the addition of three new white models to its silver line.

Models include the 222L SJ222SWH, 431L SJT431RWH and 555L SJT555RWH, making these models ideal options for small, medium and large sized households.

Denis Kerr, Sharp's Deputy Managing Director said, "The new range comes in a classic white finish to blend easily with any kitchen design or décor and has practical user-friendly features for everyday use. With now 16 refrigerators in the top mount and French door ranges, Sharp offers consumers a variety of stylish finishes and sizes."

The three models feature an inbuilt Nano Deodoriser to trap odour-causing molecules when air passes through the filter, keeping the refrigerator smelling fresh and clean. The SJT431RWH and SJT555RWH also incorporate an innovative Hybrid Cooling System where an aluminium panel at the rear of the refrigerator is cooled to approximately 0°C to help prevent dryness, uneven and over cooling.

Organisation is made simple inside the two-door refrigerators thanks to adjustable shelves, slide out fresh room, door pockets and drawers. The freezer compartment allows flexible storage with an adjustable shelf to allow convenient storage. It is complemented with a twist and serve ice tray.

RRP:

SJ222SWH: \$603.90

SJT431RWH: \$1043.90

SJT555RWH: \$1373.90

The three new Sharp top mount refrigerators are available in May from leading electrical retailers. For further product information and full specifications visit www.sharp.net.au or call 1300 135 530.
