

### **Stylish new Sharp micro system is the perfect fit**

With high performance sound and an environmentally conscious design, Sharp Corporation of Australia's new Micro Component System is a sleek audio system.

Ideal for rooms where space is at a premium – especially bedrooms, kitchens and offices, the XL-MP15H is perfect as a shelf unit. It offers crystal clear audio with 10 watt RMS output power plus bass from the inbuilt X-Bass function with a four mode pre-programmed equalizer. The unit is also environmentally friendly with only 0.6 watt power consumption in stand-by mode.

CD-R/RW playable, the system also offers MP3 and WMA compatibility. Front audio input allows for instant and simple connection to other audio equipment. Other terminals include headphones, FM & AM antenna and speakers.

The Sharp XL-MP15H features an AM/FM tuner with 40 station preset memory and 32 track APMS (Automatic Programmable Music Selector) for CD. For convenience of use, there is a full function remote control and an inbuilt clock, time and sleep function.

Available in a stylish black piano finish, the XL-MP15H is designed to complement traditional or contemporary interiors. The main unit is only 200mm (wide) x 137mm (high) x 210mm (deep), while the speakers are both 135mm (wide) x 160mm (high) x 165mm (deep), making this model the perfect fit for bookcases, wall units, desk tops or cabinets.

The Sharp XL-MP15H Micro Component System is available now from leading electrical retailers at \$169 RRP. For further product information and full specifications visit [www.sharp.net.au](http://www.sharp.net.au) or call 1300 135 530.
