

SHARP

FO-P710/FO-A760

Plain Paper Facsimile Series

ELEGANCE SERIES WITH SMART TRAY

Providing a conventional solution for even the smallest office situation, the FO-P710 and the FO-A760 (with answering machine) brings you compact plain paper facsimiles featuring Smart Tray and a host of user-friendly functions packaged in a lightweight design.

Space Save with Smart Tray

The FO-P710 and the FO-A760 (with answering machine) offer a great space-saving feature with the Smart Tray. The Smart Tray, which can be folded down when not in use, reduces this compact machine to under the size of an A4 sheet.

Simple To Use Features

Easy to use inbuilt features include the reception to memory function, which can be set at default to allow the user to print out received faxes at a later time. Reception modes include Telephone/Fax, Telephone and Fax, and the four-point operation key provides directory dialling, customised user setting and volume adjustment.

Superior Memory Performance

The Sharp FO-P710 comes with a 40-page memory whereas the Sharp FO-A760 with answering machine offers up to 50-page memory with no voice messages recorded, or up to 15 minutes of voice messages (including outgoing message) with no documents in memory. Transmission time is less than 10 seconds on both models and the FO-A760 also offers remote access to the answering machine.

Other Key Features

- Super efficient 14.4Kbps transmission speed
- 100 number automatic dialler
- 10 A4 sheet paper tray capacity
- Caller ID and Faxstream® Duet (distinctive ring) compatibility
